Screen Printing INK

We proudly carry the Avient family of Inks!

Rutland Plastic Technologies

- M3 System Mixing System Inks
- Various EH & EL Rutland Color Inks
- New Low Cure Chill Series
- White and Black Inks
- Specialty Inks

QCM

- WOW Series
- XOLB Series

Taurus

- PVC Free Ink that prints like a plastisol (Nike approved)

Aquarius

- Water Based System (Nike approved)

Emulsions and Accessories

Murakami T9 is a pure photopolymer with outstanding durability for water base, discharge, high solid acrylic and plastisol ink systems. T9 exposes well with LED, metal halide or fluorescent exposure systems. Excellent resolution and durability in a fast-exposing emulsion. Easy to coat and reclaim. T9 Can be hardened if needed, in most cases no hardening is needed with proper exposure.

Murakami Aquasol HVP is a high viscosity emulsion to create extremely durable stencils for all ink systems. It has a more transparent quality that can help when registering by hand on press. Exposes fast and provides one of the most durable stencils possible for difficult inks like water base and discharge when combined with diazo additive and hardened with Murakami Hardeners.

Emulsions and Accessories

Murakami Photocure BLU is a fast-exposing pure SBQ emulsion that has the best ease of use of any of the SBQ emulsions. Virtually pin hole and fisheye free, it continues to be one of our most popular emulsions. Exposes well on even low wattage exposure units. Image quality is superb as well as long run durability.

Murakami Photocure TXR is an easy to use emulsion with exceptional image qualities. Like Photocure BLU it can expose on weaker exposure systems and still provide excellent edge quality. Image detail and durability exceeds expectations.

Murakami SP-9500 is our premier dual cure graphic emulsion. It can withstand the most aggressive solvent ink systems while providing outstanding resolution of fine details. SP-9500's wide latitude offers an easy to use emulsion with exceptional durability.

Murakami BL-901 is a medium viscosity, water soluble red screen block out. BL-901 is designed to fill the open areas of the screen that are not covered by emulsion or film. BL-901 can be used for masking other designs on the screen until they are ready to be printed. BL-901 screen block out is excellent for touching up pin holes and fisheyes.

Emulsions and Accessories

Scoop Coater is an essential tool for coating all direct liquid emulsions on screens. Scoop coaters apply a smooth, even coat of emulsion much better than a squeegee. Designed for easy grip, application, and cleanup. Our scoop coaters feature a dual sided coating edge, a sharp edge for thin coats on higher mesh screens, and a rounded edge for coating lower mesh screens or for coating heat transfers. These scoop coaters are also designed to sit upright while filled with emulsion to help avoid messy situations. Extruded from T6 aluminum this coater is easy to hold, very durable, and holds a good amount of emulsion for lengthy coating sessions. Various lengths up to 72".

Blockout Pens are great for fixing small pin holes in your emulsion after exposure or even during the printing process. Don't worry about tap or block out solutions, simply apply with this pen and the pin hole goes away! To ensure complete coverage, the block out solution has a fairly high viscosity.

Discovery 2011

Discovery 2011 (Flammable) Premium Stain Removing Solvent

Discovery 2011 is a highly versatile and fast drying product for cured plastisol inks, heat transfers, grease, oil and soil stains.

- Contains ketones
- Excellent solvency
- Will not leave residue on fabrics
- Use with the Mystic Spray Cleaning gun for targeted stain removal

Currently being used at factories of Adidas, Gildan, Hanes and many Nike contractors. Best when applied through ANC's Mystic Spray Gun. If a ring or circle appear once dry, use our aerosol "Pull Out" Spot Remover.

Triple Blend

Triple Blend (Non-Flammable) Premium Cured Plastisol Remover

A must have for textile screen printers for the quick removal of cured plastisol ink. Also works great removing grease, soil and oil from fabrics.

- Non-flammable
- Non VOC solvent
- Very fast drying
- Never degrades fabric
- Excellent solvency
- Does not deplete the ozone layer
- Use with the Mystic Spray Cleaning gun for targeted stain removal

Kwik Kleen 200

Kwik Kleen 200 (Flammable) **Heavy Duty Stain Remover Solvent for Textiles**

A fast drying, high grade grease, soil and oil stain remover

- Excellent Solvency
- Will not leave residue on fabrics
- Does not deplete the ozone layer
- Low odor
- Not on any restricted substance list
- Use with the Mystic Spray Cleaning gun for targeted stain removal

M.C. 250

M.C. 250 (Non-Flammable) **Premium Stain Remover Solvent for Textiles**

A fast drying, high grade grease, soil and oil stain remover

- Excellent solvency
- Will not leave residue on fabrics
- Does not deplete the ozone layer
- Contains pure chlorinated solvents
- Also removes cured plastisol ink
- Use with the Mystic Spray Cleaning gun for targeted stain removal

Omni-Blend #2

Omni Blend #2 (Non-Flammable) Premium Grade Solvent Blend Textile Stain Remover

A fast drying, high grade grease, soil and oil stain remover

- Contains Virgin TCE (Uncut/High Grade)
- Will not leave residue on fabrics
- Does not deplete the ozone layer
- Also removes cured plastisol ink, glue and latex
- Use with the Mystic Spray Cleaning gun for targeted stain removal

Max-Blend 2022

Max Blend 2022 (Non-Flammable) High Grade All Purpose Solvent Cleaner

A fast-drying, high grade textile stain, cured plastisol ink and vinyl letter remover

- Will not leave residue on fabrics
- Does not deplete the ozone layer
- Does not contain chlorinated solvents
- Clear and colorless liquid
- Use with the Mystic Spray Cleaning gun for targeted stain removal

P.C. Special

P.C. Special (Flammable) **Heavy Duty Stain Remover Solvent for Textiles**

A fast-drying high grade remover of cured plastisol ink, heat transfers, grease, soil and oil stains

- Contains ketones
- Excellent solvency
- Will not leave residue on fabrics
- Use with the Mystic Spray Cleaning gun for targeted stain removal

Liquid Pre & Post Spot Removers

Stain Remover Kit

Includes:

- Mystic Spray Gun
- Pull Out Ultimate
- Kwik Kleen
- UN-BELIEVABLE® Products:
 - Stain & Odor Remover
 - Ink-Out
 - Un-Goo

Unbelievable!® Pro Stain & Odor Remover Liquid Spot Remover

- General spotter for carpet, upholstery, fabrics, and clothing
- Advanced formula eliminates tough stubborn stains like coffee, wine, fruit juices, food spills and more
- Enzyme-active to permanently eliminate odors, not just cover them up
- Formulated with stain repelling agents to prevent re-soiling

Liquid Pre & Post Spot Removers

Unbelievable!® Ink Out **Pen & Ink Remover**

- Spot remover works on road signs, whiteboards, brick, plexiglass, and vinyl
- Advanced formula eliminates spots and stains safely without harsh chemicals & toxins
- Non-flammable and biodegradable

Unbelievable!® Un-Goo **General spotter for carpet, upholstery, fabrics and clothing**

Safely removes petroleum-based spots and stains quickly and easily with lower odor.

Removes:

- Grease
- Oil
- Tar
- Gum
- Adhesives
- And much more

Aerosol Powdered Spot Removers

PULL OUT 2

NOT FOR SALE
IN CALIFORNIA

Spot Remover

- Quickly removes grease, soil and oil stains from fabrics
- Removes the ring that sometimes appears in the garment after the initial stain has been removed
- Very fast drying
- Great for textile mills, apparel manufacturers, embroiderers, dry cleaners and upholsterers

PULL OUT PREMIUM

NOT FOR SALE
IN CALIFORNIA

Premium Spot Remover

- Does not contain any chlorinated solvents
- Quickly removes grease, soil and oil stains from fabrics
- Removes the ring that sometimes appears in the garment after the initial stain has been removed
- Very fast drying
- Great for textile mills, apparel manufacturers, embroiderers, dry cleaners and upholsterers

PULL OUT Ultimate

Advanced Spot Remover

- VOC compliant in all 50 states
- Does not contain any chlorinated solvents
- Quickly removes grease, soil and oil stains from fabrics
- Removes the ring that sometimes appears in the garment after the initial stain has been removed
- Very fast drying and very low odor
- Great for textile mills, apparel manufacturers, embroiderers, dry cleaners and upholsterers

Screen Reclaiming Chemicals

Ink Buster

Screen Wash

Ink Buster is a high-quality ink remover for mesh fabric that consists of a ready to use formulation with low toxicity. It is water soluble, combustible and environmentally safe.

Workhorse II

Reclaimer and Spot Cleaning Solvent

Workhorse II is designed to remove ink out of the frame without touching the emulsion. It also removes grease, soil, oil and most any type of fabric stain that might appear during the cut & sew process.

We proudly carry KOR-CHEM family of Reclaimers!

BIO-1

Biodegradable Ink Remover, Stain Remover & Degreaser

Bio-1 is a water soluble ink degradant and stain remover. Formulated using biodegradable and organic compounds that make Bio-1 environmentally acceptable, safe and highly effective. The 100% active formula of Bio-1 works on contact by immediately penetrating and dissolving all types of graphic and textile inks. Bio-1 efficiently removes plastisol, UV, conventional/solvent based, water based, enamel, electronic, epoxy and vinyl inks from screens. The built-in ink stain remover aggressively removes image stains without harming the mesh. Bio-1 rinses freely and easily with water and has a very pleasant bubblegum scent.

BIO-7

Ink/Stain Remover/Degreaser

Bio-7 is a powerful ink degradant and stain remover formulated using biodegradable and organic compounds. The highly active formula works on contact by immediately penetrating and dissolving all types of graphic and textile inks from screens.

Complete

One Step Ink & Emulsion Remover

Complete is a super-fast acting, one step product that removes ink, block out, emulsion and capillary film from the screen all at once. Complete begins to work on contact and easily removes all types and combinations of inks and emulsions. Complete streamlines screen reclaiming, decreases labor, consolidates products and dramatically reduces the cleaning cost per screen. A versatile, biodegradable solution designed to be used in a variety of ways, Complete can be applied by spray for manual cleaning or used in dip tank applications.

ER-130

Emulsion Remover (Concentrated)

ER-130 is a concentrated emulsion remover formulation designed for fast removal of diazo, photo polymer and capillary film emulsions. ER-130 may be applied by means of spray bottle, sponge, scrub pad or pump system application. ER-130 will increase reclaim efficiency and reduce time per screen by eliminating additional steps in the reclamation process.

ER-188

Emulsion Remover

ER-188 is a full strength emulsion remover designed for fast removal of emulsions and capillary films from screens. It is ready to use, no dilution necessary.

PC-235

Press & Screen Wash

PC-235 is a fast acting press and screen wash that easily opens up image areas on the screen during the production run. Excellent for press side wash up, color changes and as a pre-step to color changes using plastisol inks without harming the screen emulsion. PC-235 protects the screen fabric from deep stains or ghost images from the image print and will make the screen much easier to completely reclaim once that step is necessary.

ProClean

Haze Remover, Stain Remover and Degreaser

ProClean is a concentrated cleaner designed to remove all remaining stains from screens during the reclaiming process. ProClean will degrease the screen and help prevent ghost images from occurring.

ProTex

Press & Screen Wash for Textile

ProTex is designed to quickly open dried or clogged images on the screen during the production run. Use ProTex on textile inks without harming the emulsion. Excellent for press side wash up, color changes and as a pre-step to color changes. ProTex may be rinsed with water and is drain safe.

Pink Scrub

Abraider, Degreaser & Dehaze

Pink Scrub is a super thick dehazer and degreaser that works on all types of screen inks. The thick paste formulation of Pink Scrub allows the product to spread easier than most products. This ability to spread and flow permits Pink Scrub to more efficiently enter the mesh knuckles with less effort and time. Pink Scrub begins to “work” on contact to remove ghost image stains, fabric oils and residues which will interfere with the emulsion coating. The low foaming formulation requires less time to rinse and reduces the chance of residual chemical being left on the screen. Using Pink Scrub will properly prepare your screen for emulsion coating and help reduce issues such as fisheyes and pin-holes.

BEAN•e•doo®

Plastisol Ink Remover

BEAN•e•doo is a soy-based formula that eliminates the need for mineral spirits and other toxic solvents commonly used to remove ink. BEAN•e•doo's safer, effective chemistry quickly and easily cleans screens while reducing the hazards of reclamation to workers and the environment.

Color Change™

On Press Ink Remover

Color Change provides for quick color changes on press and can also open clogged mesh areas during a run. It's effective on plastisol and all-purpose inks, and the non-aerosol formula is easy to use and free from harsh chemicals.

D•GREASE™ **Screen Degreaser**

D•GREASE is tough on solvent residues and easy on the environment. Its fast-drying formula helps prevent “fisheyes” and is ideal for prepping screens before recoating them with emulsion. It’s alcohol-free, non-caustic and biodegradable.

Ickee Stickee Unstuck® **Adhesive Remover**

Ickee Stickee Unstuck quickly eliminates the sticky mess that can build up on pallets and other surfaces around the shop. A few sprays and a swipe of a shop towel, and your pallet is clean and ready for the next run.

Scorch•e•doo™ **Scorch Remover**

Scorch marks left by flash curing units and dryers have always been an occasional problem for screen printers. Scorch•E•Doo scorch remover is a great product to have on hand for those moments shirts get scorched with no extras in sight.

STRIP•e•doo® **Emulsion Remover**

STRIP•e•doo is an effective eco-friendly formula that has revolutionized the unpleasant process of screen cleaning! The powerful emulsion remover breaks down the toughest of emulsions, capillary films and stencils – without weakening screen mesh. It’s ideal for reclaiming silkscreens. The built-in degreaser also changes color when no longer active, letting you know when it’s time for replacement.

Adhesives

Aerosols

Screen Printing – Mist Adhesives

Platinum 200 Mist Spray

NOT FOR SALE
IN CALIFORNIA

Designed as a pressure sensitive pallet adhesive that's non-staining, offers quick tack, has low soak-in and won't wrinkle fine materials. An absolutely "Must Use Product" for Screen Printing applications where a strong bond offering multiple fabric pulls is mandatory.

- Works great under heat for flashing
- Ideal for Screen Printers
- Remains pressure sensitive for an extended period of time
- Excellent for making short-term bonds and releasing from the garment

Sprayway 82 Mist Type Spray Adhesive

NOT FOR SALE
IN CALIFORNIA

Sprayway 82 is a mist-type economy pallet adhesive perfect for textile screen printers. Its pressure-sensitive formula makes it repositionable without losing its strength and it holds its tack for a number of screen passes before an additional application is necessary. Sprayway 82 will not transfer to fabric nor will it allow shifting of the material during the screen-printing process.

This textile screen printing pallet adhesive is ideal for t-shirt fabrics. Bonds to cloth, cardboard, paper, acetate, foil, plastic film, cork, foam rubber and leather.

Camie 373 High Performance Adhesive

NOT FOR SALE
IN CALIFORNIA

Camie 373 is especially formulated to exhibit fast, aggressive tack with low soak-in for long lasting bonds, on such substrates as foam, cloth, felt, cardboard, and paper. Camie 373 is excellent for a variety of jobs for industry, display and fixtures.

It can be used to bond lightweight materials to a variety of substrates or itself. Camie 373 can offer temporary or permanent bonds.

Screen Printing – Mist Adhesives

Camie 380 Screen Printers' Adhesive

NOT FOR SALE
IN CALIFORNIA

Camie 380 is specifically designed as a pressure-sensitive pallet adhesive that does not stain, offers quick tack, has low soak-in and will not wrinkle fine materials.

It remains pressure-sensitive for an extended period of time. It is excellent for making short-term bonds and releasing from the garment.

Sprayway 382 FAST TACK Premium Mist Pallet Adhesive

Sprayway 382 is a mist-type economy pallet adhesive ideal for textile screen printers. The pressure-sensitive formula makes it repositionable without losing its tack for a number of screen passes before an additional application is necessary.

It quickly strips without stain or residue and will not transfer to fabric. Ideal for t-shirt fabrics. Bonds to cloth, paper, cardboard, acetate, foil, plastic film, cork, foam rubber and leather.

NOT FOR SALE
IN CALIFORNIA

Screen Printing – Flash Adhesives

ANC Hot Stuff Flash Adhesive

NOT FOR SALE
IN CALIFORNIA

Hot Stuff is a heat activated aerosol adhesive perfect for flash curing during the screen printing process. It creates a temporary bond and is ideal for t-shirts and fleece fabrics. It is neither a mist nor a web spray, therefore it has a hybrid spray pattern. Hot Stuff provides a temporary bond and will not transfer to fabric.

Hot Stuff is one of our best sellers!

Screen Printing – Flash Adhesives

Camie 375 Screen Printers' Flash Cure Adhesive

Camie 375 is formulated to meet the needs of the screen printing industry. Camie 375 will bond and hold to most substrates used in screen printing including fleece.

It comes out as a clear mist spray and holds up to the rapid heat cycles that occur during the flash cure processes.

NOT FOR SALE
IN CALIFORNIA

Sprayway 384 Fast Tack Super Flash Adhesive

Sprayway 384 is a textile screen printing pallet adhesive ideal for flash curing. This high-quality industrial grade spray adhesive has excellent heat resistance.

Sprayway 384 remains tacky even when exposed repeatedly to the high temperature required to cure plastisol inks. It will not transfer to fabric or allow the fabric to shift during the screen-printing process and it's safe to use on any fabric.

NOT FOR SALE
IN CALIFORNIA

Screen Printing – Web Adhesives

Platinum 100 Web Spray

Ideal for fleece printing and screen printers. An absolute “must use product” for screen printing applications where a strong bond offering multiple fabric pulls is mandatory.

NOT FOR SALE
IN CALIFORNIA

Screen Printing – Web Adhesives

Camie 385 Web Spray

NOT FOR SALE
IN CALIFORNIA

Camie 385 Webbing Screen Printers' Adhesive is a clear pressure-sensitive webbing adhesive that will not wrinkle the work while in use.

Camie 385 is specifically designed for fleece and other high density garments.

Sprayway 83 Web Type Spray Adhesive

NOT FOR SALE
IN CALIFORNIA

Sprayway 83 is an economy web type textile screen printing pallet adhesive that is ideal for sweatshirt fabrics. It has a pressure-sensitive formula that is especially useful as it is repositionable without losing its strength.

It sprays on easily and evenly for screen-print tacking. It will not transfer to fabric, nor will it allow shifting of the material(s) during the screen-printing process, making it ideal for heavier type fabrics.

Bonds to cloth, paper, cardboard, acetate, foil, plastic film, cork, foam rubber and leather.

Sprayway 383 Premium Web Pallet Adhesive

NOT FOR SALE
IN CALIFORNIA

Sprayway 383 is a web type economy pallet adhesive ideal for textile screen printers. The pressure-sensitive formula makes it repositionable without losing its strength. It sprays on easily and evenly for screen-print tacking. It will not transfer to fabric or allow shifting of the material during the screen-printing process making it ideal for heavier type fabrics.

Ideal for sweatshirt fabrics. Bonds to cloth, paper, cardboard, acetate, foil, plastic film, cork, foam rubber and leather.

Textile – Web Adhesives

Platinum 150 Web Spray Adhesive

NOT FOR SALE
IN CALIFORNIA

An all-purpose adhesive perfect for foam-to-foam as well as industrial uses. It is fast drying, has no residual odor and is formulated with high solids for a strong bond. It can be used with wood, acrylic, plastic, paper, cardboard, felt, and metal. Platinum 150 Web offers high coverage with minimal soak-in and is clear, flexible and waterproof.

Ideal applications:

- Upholstery
- Bedding
- Asbestos Abatement
- Furniture Repair
- Loose Carpet Backing Repair
- Temporary or permanent bonds

Platinum 315 Web Spray Adhesive

NOT FOR SALE
IN CALIFORNIA

An all-purpose adhesive for foam-to-foam as well as industrial uses. It is fast drying, has no residual odor and is formulated with high solids for a strong bond. It can be used with wood, acrylic, plastic, paper, cardboard, felt, and metal. Platinum 315 Web offers high coverage with minimal soak-in and is clear, flexible and waterproof.

Ideal Applications:

- Upholstery
- Bedding
- Asbestos Abatement
- Furniture Repair
- Loose Carpet Backing Repair
- Temporary or permanent bonds

Platinum 400-T Web Spray Adhesive

An all-purpose adhesive perfect for foam-to-foam as well as industrial uses that is VOC compliant in all 50 states. It is fast drying, has no residual odor and is formulated with high solids for a strong bond. It can be used with wood, acrylic, plastic, paper, cardboard, felt, and metal. Platinum 400-T Web is clear, flexible, waterproof and offers high coverage with minimal soak-in..

Ideal applications:

- Upholstery
- Bedding
- Asbestos Abatement
- Furniture Repair
- Loose Carpet Backing Repair
- Temporary or permanent bonds
- Adjustable Tip

Textile – Web Adhesives

Camie 313 Fast Tack Upholstery Adhesive

NOT FOR SALE
IN CALIFORNIA

Camie 313 is especially formulated to bond foam-to-foam, as well as foam-to-fabric, wood, particle board, cardboard, metal and fiberglass.

It has a web spray pattern that offers low soak-in, instant tack, is clear, and develops flexible bonds that are either temporary or permanent.

Sprayway FAST TACK 55 Foam & Fabric Adhesive

FAST TACK 55 is fortified with high solids for stronger, longer bonds. The snorkel tip provides uniform, soft glue lines that will not dimple. The quick tack and low soak-in feature leaves more adhesive on the surface of the substrate which results in stronger bonds.

It can be used to bond fabric to most foam, metal or wood surfaces and to itself. It bonds most urethane and latex type foams to themselves in butt splicing, knife edging, laminating, boxing and edge turning operations and also to metal, rigid plastic and wood surfaces.

NOT FOR SALE
IN CALIFORNIA

Bulk Adhesive

Pal-E-Tack Liquid Adhesive Water-Based Adhesive

Pal-E-Tack is an all-purpose water-based adhesive for screen printers' pallets. Formulated to be used on t-shirts, fleece and jersey. Heat sensitive adhesive which works well in hot flash.

- Non-Flammable
- Non Chlorinated Solvents
- Low In VOC
- Low In Odor
- Works well in hot flash
- Fast dry adhesive for pallet adhesion

2032-NF Liquid Adhesive Non-Flammable Solvent-Based Adhesive

2032-NF is a general purpose solvent-based adhesive.

- Non-Flammable
- Fast Drying
- Fast Tack
- Heat Resistant
- Spray grade foam adhesive
- Only available in 5 gallon pails or 55 gallon drums

Screen Openers

ANC EZ-Chem

NOT FOR SALE
IN CALIFORNIA

EZ Chem is formulated to instantaneously open clogged screens without leaving any residue. It is ideal for use with all types of screen printing inks such as plastisol ink, UV ink and vinyl screen printing ink systems. EZ Chem's unique formula successfully reduces downtime and speeds up production. Just spray on, wait for a quick chemical reaction, and remove.

- Fast drying
- Ideal for opening up the image area
- Instantly dissolves ink
- Leaves no film
- Works on a variety of inks
- High solvency
- Mesh safe
- Does not contain ozone depleting chemicals

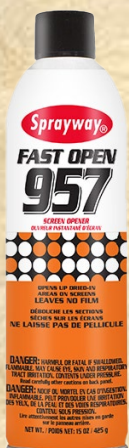

Camie 480 Screen Opener

NOT FOR SALE
IN CALIFORNIA

Camie 480 Screen Opener works to unclog screens and loosen plastisol inks on screens.

- Works fast to reduce down-time on screen printing projects
- Pinpoint spray pattern

Sprayway FAST OPEN 957

NOT FOR SALE
IN CALIFORNIA

A convenient and easy-to-use product designed to open dried-up areas on screens. Use FAST OPEN 957 at regular intervals to help prevent clogging and work delays.

Simply spray a very thin application to the dried-in area or areas. Two or three squeegee passes will open the mesh completely.

Silicones & Oil

ANC Textile Grade Silicone

ANC Textile Grade Silicone is a high quality silicone spray especially formulated to provide superior all- purpose lubrication and protection. It contains high solids and has a thick viscosity so that constant application is not necessary. The ANC Silicone contains heavy duty silicones without ozone depleting chlorinated solvents. It is ideal for all industries and is specially formulated for garment mills, screen printers, upholsterers, mattresses, embroidery shops, etc.

Sprayway Silicone Spray

Sprayway Silicone Spray retards corrosion and makes cleaning easier and quicker. It dries fast with no greasy or oily film. The silicone spray saves valuable time while it protects and preserves equipment. It is colorless, non-staining, waxless and heatstable which is unaffected by temperatures ranging from -40°C to 204°C . It has unusually low surface tension properties.

Super-Kleer #22 Textile Needle Oil

Sewing Machine Oil/General Purpose Textile Oil

Super-Kleer #22 is a highly refined, high viscosity index, mineral oil that gives excellent lubricating performance where rust, oxidation and/or high bearing and gear loading are not problems. Unsurpassed as a textile needle oil, it is not cut with any low-grade diluents.

Applications:

- Textile Needle Oil and general-purpose textile oil where high standards are mandatory
- Light Duty Hydraulic Systems
- Plain and Anti-Friction bearings
- Spur, helical and bevel gears operating under moderate loads

Wiping Cloths

Tee Wipes

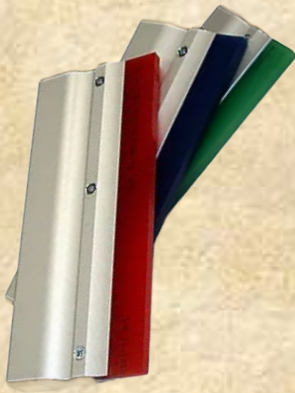

The Tee Wipes 9"x14" are an excellent all-purpose option offering high bulking properties making them extremely absorbent and soft. A durable wiper perfect for all tasks. Offers outstanding performance with detergents, water, oil, solvents and most chemicals. Can be used in both wet and dry applications.

6969 Wipes

The 6969 Wipes 12"x13" are an excellent all-purpose option offering high bulking properties making them extremely absorbent and soft. A durable wiper perfect for all tasks. Offers outstanding performance with detergents, water, oil, solvents and most chemicals. Can be used in both wet and dry applications.

Squeegees

The durometer is the measurement of hardness of a blade/squeegee. The hardness of the squeegee lets you decide how much ink needs pushing through the mesh. Durometer has a big role in creating sharp designs and durable prints depending on the type of design that is being printed. The best durometer for screen printers depends on how much ink deposit is needed for the design.

Screen Printing Tape

Sold by roll or case

PMI 321 Block Out Tape

2" & 3" x 110 Yards

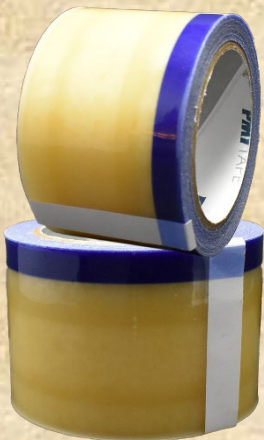

PMI 321 Block Out Tape is your indispensable tool for achieving flawlessly detailed screen printing projects. Crafted with precision and designed for convenience, this tape provides a seamless solution for blocking out unwanted areas on your screens.

PMI 451 Full Adhesive Tape

2" & 3" x 60 Yards

PMI 451 Full Adhesive Tape is a full adhesive that allows for taping further into the screen and by taping the print side of screens it provides as a block out tape.

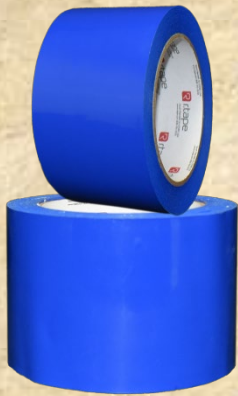

PMI 260 Quick Rip Tape

3" x 60 Yards

PMI 260 Quick Rip Tape is used for taping the print side of screens as a block out tape. Hand-tearable with a blue non-adhesive edge providing a tab to lift Quick Rip Tape from the screen.

Screen Printing Tape

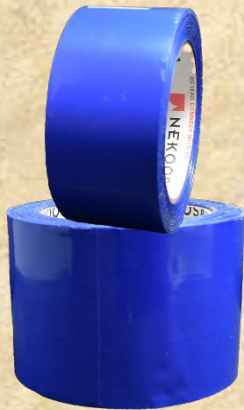

Sold by roll or case

RTape Blue Block Out Tape

2" & 3" x 36 Yards

Blue Block Out tape is a self-wound polyethylene film tape coated with an aggressive adhesive. Its water based adhesive resists attacks by inks and solvents and withstands multiple pressure washes and solvent baths. Blue Block Out is easy to apply and removes cleanly from frames and mesh with no adhesive residue.

Main Blue Block Out Tape

2" & 3" x 36 Yards

Nekoosa Blue is a self-wound polyethylene film with aggressive acrylic adhesive to use with conventional wooden framed screens. It forms a solvent-resistant ink dam, preventing leakage. The block out tape removes cleanly from mesh without leaving adhesive residue. By taping both sides of the screen, it can withstand multiple washings.

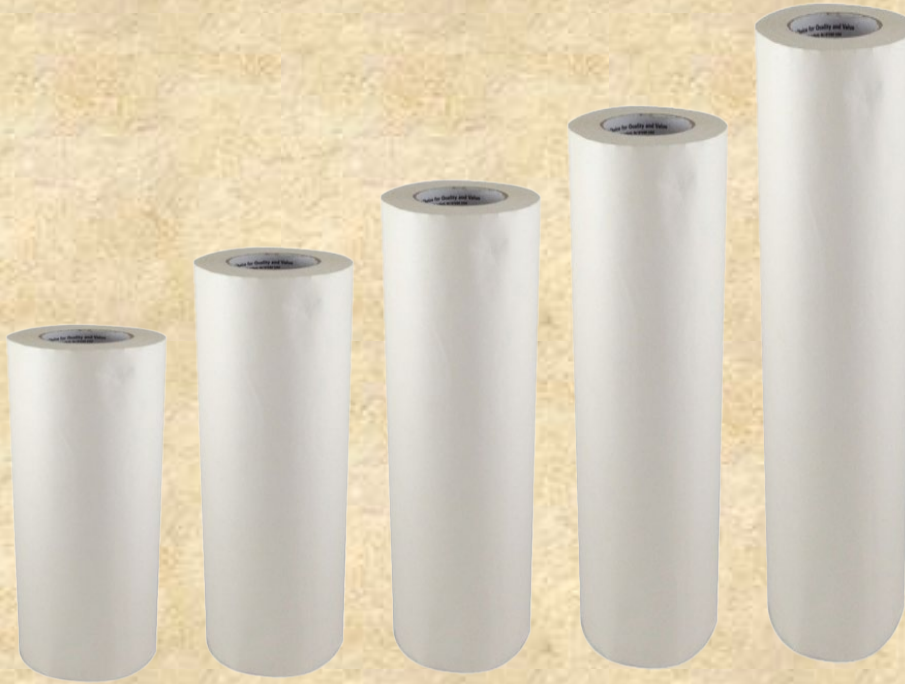

Split Tape

2", 3" & 4" x 60 Yards

Split Tape is a great help for screen printers! Unique liner-less design incorporates approximately 60% adhesive and the remaining is non-adhesive to protect wood or metal frames. The blue areas of the tape have no adhesive keeping your frames clean and free of adhesive residue. There is no release liner to remove for faster application. Saves reclaiming time, removes cleanly and quickly, and leaves no liner waste to clutter the work area.

Screen Printing Pallet Tape

Single-Tack

Pallet Tape is easy to apply and remove. Designed as an eco-friendly solution to extend pallet life, reduce clean-up after screen printing, and keep pallets clean from harsh chemicals. Our Pallet Tape also protects print platens from spray adhesive build-up.

Size	Length
12"	100 Yards
16"	
18"	
20"	
24"	

Dual-Tack

PMI Dual-Tack Pallet Tape is sticky on both sides to hold shirt in place without having to apply water-based or spray adhesive. Adhesive can be re-activated by wiping with a wet sponge.

Size	Length
15"	36 Yards
18"	

Spray Guns

MYSTIC and MITEY MITE

MYSTIC

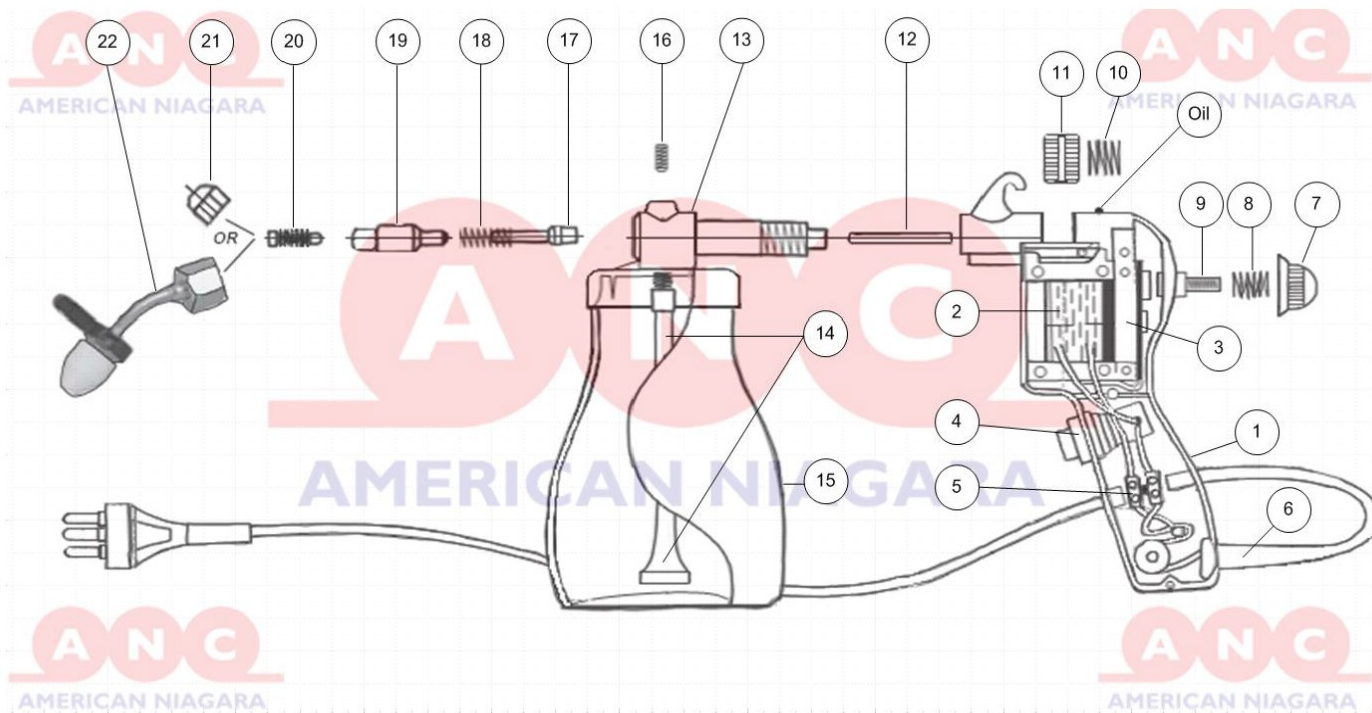

The Mystic Textile Spray Gun is tough and dependable! It is the highest quality metal gun on the market and is used by textile screen printers worldwide.

- Adjustable nozzle is designed to handle the strongest solvents
- All-metal handle reduces risk of breaking if dropped
- All-metal internal components less likely to require repairs and maintenance
- Adjustable pressure and spray pattern for different fabrics
- 1650 PSI
- Available in 110v/60 Cycle A.C.
- Works great with Tribble Blend or another ANC spot remover
- 12 months warranty on parts and labor for normal wear and tear

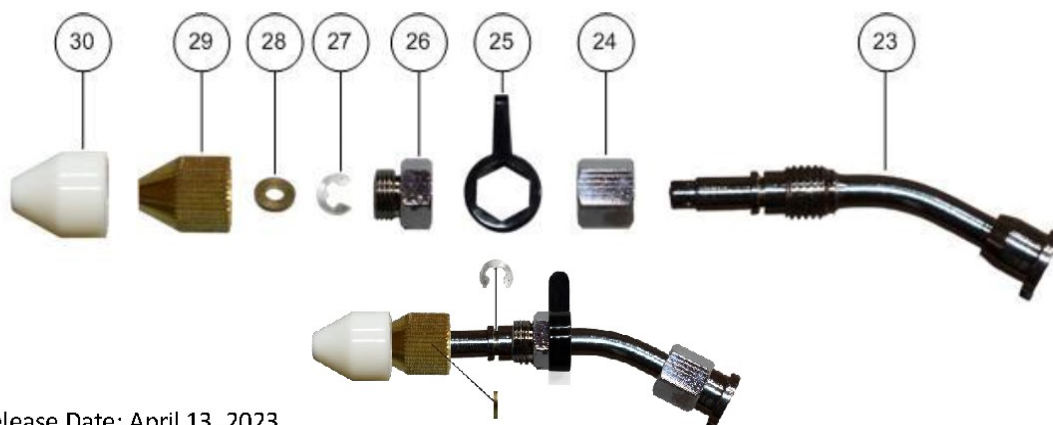

MITEY MITE

The Mitey Mite Textile Spray Gun is a lightweight gun that has plenty of power that makes cleaning fast and easy.

- Adjustable nozzle is designed to handle the strongest solvents
- Sturdy plastic handle makes the gun lightweight and easy to use
- All-metal internal components less likely to require repairs and maintenance
- Adjustable pressure and spray pattern for different fabrics
- 1650 PSI
- Available in 110v/60 Cycle A.C.
- Works great with Tribble Blend or another ANC spot remover
- 12 months warranty on parts and labor for normal wear and tear

Part No.	Item	Part No.	Item
1	Gun Housing	16	Pump Cylinder - Set Screw
2	Drive Unit - Transformer	17	Pump Cylinder - Piston
3	Drive Unit - Vibrating Armature	18	Pump Cylinder - Piston Spring
4	Trigger Assembly	19	Pump Cylinder
5	Connection Block	20	Valve Assembly
6	Power Cord	21	Nozzle Head - Straight

11	Adjusting Roller	26	Nut Front - Adjustable Nozzle
12	Intermediate Push Rod	27	E-Ring - Adjustable Nozzle
13	Front Body	28	Brass Washer - Adjustable Nozzle
14	Suction Tube with Strainer	29	Brass Nozzle Head - Adjustable Nozzle
15	Solvent Container	30	Nozzle Cap - Adjustable Nozzle

Release Date: April 13, 2023

Spot Cleaning Workstations

#80 Workhorse

Professional Grade Spot Cleaning Station & Exhaust Unit

- Fully portable
- High-powered exhaust motor
- 110 VAC / 60 Hz.
- Plug & Go
- Foot pedal power source
- Air/fluid hose
- Separate air-only hose
- Fully self-contained
- Fluid Storage Bowls
- 2 Year manufacture warranty (parts & labor)
- Add dryer-hose to exhaust fumes

2000 Air Devil

Cold Spotting Table with Stainless Steel Board

- High-powered exhaust motor
- 230 VAC / 50 Hz.
- Plug & Go
- Foot pedal power source
- Air/fluid hose
- Separate air-only hose
- Fully self-contained
- Fluid storage bowls
- 2 year manufacture warranty (parts & labor)
- Add dryer-hose to exhaust fumes

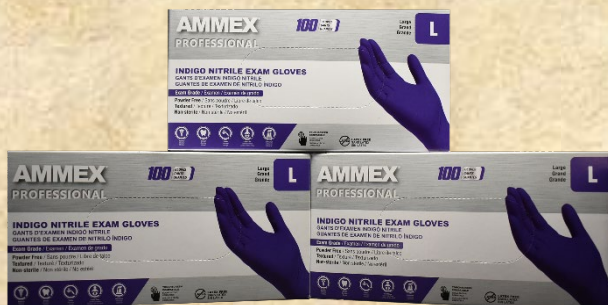

Lil Sucker 2

Portable Spot Cleaning Station

- Fully portable
- High-powered exhaust motor
- 110 VAC / 60 Hz.
- Plug & Go
- Perfect for small/medium screen printers
- Lightweight - just 20 lbs.
- Fully self-contained
- 2 year manufacture warranty (parts & labor)
- Add dryer-hose to exhaust fumes

Gloves

AMMEX X3 Large Professional Indigo Nitrile Gloves Indigo Nitrile Exam Gloves

AMMEX Professional Exam Gloves provide safety and comfort. These durable and latex-free gloves are popular across the healthcare spectrum.
Count: 100 Gloves/box

AMMEX X3 Large Blue Nitrile Gloves Blue Nitrile Gloves

The AMMEX X3 are constructed from dependable 3 mil nitrile. The lightweight gloves are designed to fit a wide variety of needs. The tactile sensitivity is ideal for performing delicate tasks. Each glove provides reliable barrier protection for numerous light-industrial applications including restaurants, salon & beauty, janitorial, painting, auto detailing, and more. In addition, the gloves are latex and power-free for those allergic to natural rubber.
Count: 100 Gloves/box

Great Glove Flexfit XL Nitrile Gloves Nitrile Gloves

The Flexfit is thinner and a lighter glove with extraordinary tactile sensitivity and elasticity. Each glove provides dependable protection and finger textured ensures a secure grip.
The Flexfit is ideal for latex sensitive users as they are made from component materials which comply with FDA regulations for food contact 21 CFR 170-199.
Count: 190 Gloves/box

AmerCare Edge Indigo XL Nitrile Gloves Nitrile Gloves

The XL Edge Indigo Nitrile Gloves are powder and latex free, making them a suitable option for people with latex allergies or sensitivities. The gloves feature a textured design and help to provide a confident grip.
Count: 100 Gloves/box

Miscellaneous

Jaxx Zorb Absorbent

Jaxx Zorb is an absorbent that is non-hazardous. Upon application, it fully absorbs and encapsulates up to 600 times its own weight!

Will absorb:

- Acids
- Caustics
- Oils
- Chlorinated & non-chlorinated solvents
- Paint & Ink
- Bodily Fluids

Frame Adhesive Kit Frame Making/Repair

Frame Adhesive Kit is for screen printing used primarily in securely adhering "mesh fabric" onto aluminum frames.

Kit includes:

- Frame Adhesive
- Frame Activator
- Blue Spreader

Scrub Pads Screen Scrub Pad

Screen scrub pads allow you to thoroughly clean mesh screens without damage to the screen surface removing ink, emulsions, haze and ghost image. The following pads are available:

- Blue - Most abrasive
- Red - Medium abrasive
- White - Least abrasive

Handle Reusable Scrub Pad Handle

The reusable scrub pad handle has fine plastic bristles that hold the replaceable scrub pads tight to the handle completing the scrub brush. It's a great money saver in any shop because this handle will outlast several replaceable pads so each time a pad goes bad you only have to replace the pad, not the brush.

Miscellaneous

Optibond 289 Nylon Additive

The Optibond 289 additive is the perfect addition for any shop that wants to print on Nylon materials.

Simply add a small amount of the Optibond catalyst mixed at the correct ratio to your plastisol ink, and the product will secure the adhesion to the nylon substrate.

Aluminum Screen Rack Store 20 Screens

The Aluminum Screen Rack is an essential tool for even the smallest screen printing operations.

Constructed of rust free aluminum, it is light weight as well as sturdy. The Aluminum Screen Rack efficiently stores 20 frames and is universal to work with both 20x24" and 23x31" (outside dimension) static frames. It can be easily moved around the shop from wash booth to press or rolled out of the way on the locking castors.

WhiteRhino Heat Transfer Adhesive Heat Transfer Adhesive

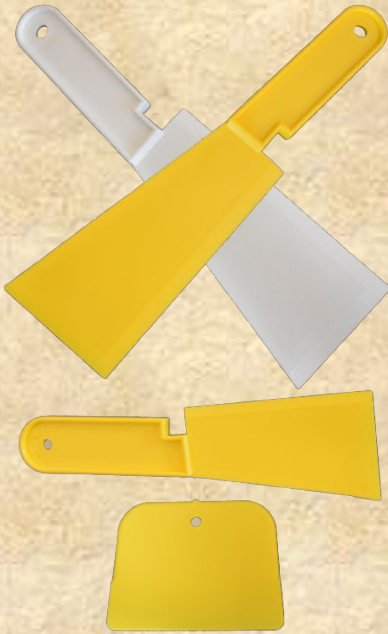

WhiteRhino Heat Transfer Adhesive is primarily used as a 'bonding' agent with heat transferred ink. The transfer powder helps ensure a more thorough transfer of the ink onto the material. This also helps prevent dead spots from failing to transfer to the garment. Some ink types can transfer successfully without using transfer powder. However, it is still recommended to use adhesive powder. This will yield the best results possible with all ink types.

Drum & 5 Gallon Hand Pump Manual Pump

Quick action pump, easily fills or empties light oils and various water-based solvents that are compatible with polyethylene. Air vent controls siphoning; pumps to higher levels and siphons to lower levels.

Miscellaneous

Goop Scoop & Ink Spreader Ink Spatula

Made of high quality plastic, hard and tough, this spatula is ideal to mix and remove all content from sides and bottom of containers. The spatulas have a notch design allowing you to clip on the edge of the container. Anatomical handle for a comfortable use. A hole in the end of the handle allows it to be hung anywhere.

- Large Yellow or White Goop Scoop with 6½" blade and total length of 12"
- Medium Yellow Goop Scoop with 4½" blade and total length of 8½"
- Yellow Ink Spreader with 4" blade

Hands Down Cleaner Hand Cleaner

Hands Down is a heavy duty liquid hand cleaner specially formulated with scrubbing microbeads that provide a gentle deep cleaning action. It easily penetrates, cleans and removes ink, paint, coatings, grease, oil, dirt and virtually all other soils from hands with or without water.

Hands Down was developed using the latest technology in natural and biodegradable hand care ingredients. The rich lathering formula rinses freely and is fortified with aloe for a soothing finish that protects hands against drying and chapping. The pleasant lemon-lime scent leaves skin with a fresh and clean feeling.

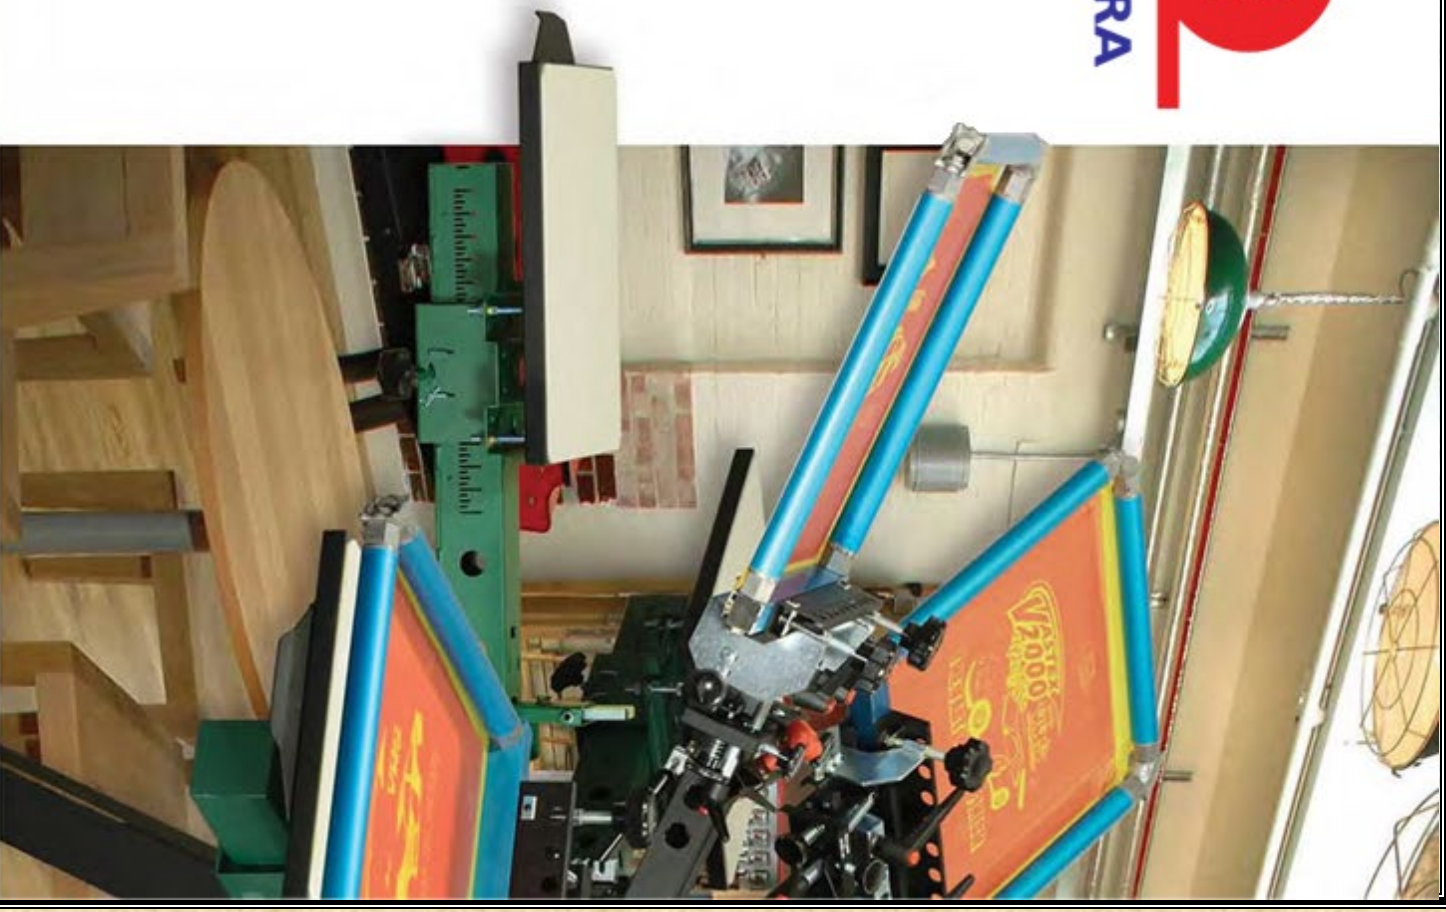

Ultimate Clean-Up Card Clean-Up Card

The Ultimate Clean-Up-Card A simple disposable ink and scoop coater cleaning tool for screen-printers. This little card is EASY TO USE, handy, saves you time, is inexpensive, easily disposable, conserves ink, and ultimately saves you money.

Uses:

- Cleaning screens
- Applying block out to screens
- Cleaning scoop-coaters
- Applying Pallet Glue
- Much, much more
- Sold by case of 1,500 cards
