

Winner of SGIA's Product of the Year for Manual Textile Press!

The American
ROTOTEX *REDESIGNED*
Manual Textile Printer

**Model shown is the
6-color, 6-station unit**

ADVANTAGES

- Almost 22% smaller footprint for the space-conscious shop
- Precision machined for extreme accuracy
- Tool-free adjustments for faster setups and changeovers
- Quick release pallets now standard on all models
- Lighter-weight print heads for easier carousel rotation and easier indexing
- Micro-Registration System with eccentric hardened steel bearings
- Side screen clamps hold screens from both sides for maximum stability
- Heavy-duty construction for absolute stability during production
- Positive head Lock-In maintains exact color-to-color repeatability
- Aluminum platens are heat- and warp-resistant, and easy to clean
- Fits through standard doorways
- Crate size/shipping costs greatly reduced

The legendary Rototex™ manual textile printer from American and A.W.T. World Trade, Inc. offers the perfect combination of highly versatile production capabilities and easy operation. Newly redesigned with convenient new features and a smaller overall footprint, The American Rototex is poised to revolutionize textile screen printing for a whole new generation of users.

Known for the most accurate registration in the industry, The American Rototex is the strongest, most reliable manual textile printer on the market. Since its introduction in 1976, the Rototex has been the most sought-after manual t-shirt printer in the world. The updated units feature faster setups and changeovers with tool-free adjustments, quick release pallets standard on all models, and an almost 22% reduction in overall size without compromising the stability and durability for which The American Rototex is known.

The multi-directional X/Y registration system enables the operator to perform quick color-to-color setups. This heavy-duty system will not wear or vibrate out of register even during extended production runs. Off-contact control from the pallets, print heads and frames allow operators to directly manage ink deposits for excellent fine line and halftone reproduction.

THE A.W.T. WORLD TRADE GROUP

*Combining state-of-the art engineering expertise and creativity
with outstanding customer service to provide quality, consistency, and value
to the screen printing industry for more than 40 years*

The A.W.T. World Trade Group offers screen printers a complete manufacturing source for machinery, parts, supplies, accessories, and remanufactured equipment. A.W.T. develops comprehensive systems that work efficiently and economically to avoid printing errors, reduce production downtime, and keep your operation profitable. Experience has shown that utilizing a single manufacturing source greatly reduces potential equipment incompatibility issues.

Our experienced sales, engineering, and technical support personnel will assist you in selecting the optimal screen printing system and equipment for your company's particular needs, or with ordering supplies and accessories from our extensive inventory.

With unparalleled proficiency in technical support and service, our staff will quickly and confidently guide you through the ordering, installation, and setup processes, and answer any questions you may have. We can also custom design a system for your specific application.

Founded in 2002 with the acquisition by A.W.T. World Trade and Graphic Parts International of American Screen Printing Equipment, the A.W.T. World Trade Group has further expanded its range of products and services with the establishment of Specialized Safety Products in 2008, the acquisition of General Cylinder Presses in 2010, and the acquisition of Saturn Racks in 2011.
