

SCREEN PRINTING CHEMICALS

# Complete

## One Step Ink & Emulsion Remover

### DESCRIPTION

Complete is a super fast acting, one step product that removes ink, block out, emulsion and capillary film from the screen all at once. Complete begins to work on contact and easily removes all types and combinations of inks and emulsions. Complete streamlines screen reclaiming, decreases labor, consolidates products and dramatically reduces the cleaning cost per screen. A versatile, biodegradable solution designed to be used in a variety of ways, Complete can be applied by spray for manual cleaning or used in dip tank applications.

### ADVANTAGES

- ❖ Extremely Fast Acting
- ❖ Biodegradable
- ❖ Non-Flammable
- ❖ Non-Hazardous
- ❖ Contains No VOCs
- ❖ No Odor

### DIRECTIONS

**Manual Cleaning:** Once printing is complete, scrape excess ink from the print side of the screen. Apply COMPLETE by spray or wipe to the print side of the screen and scrub. After the ink and emulsion are fully solubilized; apply a high pressure rinse to the print side and the well (ink) side of the screen. As a final step, apply a Kor-Chem Ink Remover to both sides of the screen, then high pressure rinse both screen sides. Flood rinse entire screen with low pressure rinse.

**Dip Tank Cleaning:** Fill dip tank with water and COMPLETE at a ratio of 1 part COMPLETE to 9 parts water. Once printing is complete, scrape excess ink from the print side of the screen. Place screens in dip tank with COMPLETE solution. Once inks and emulsions are fully solubilized, remove screens and apply a high pressure rinse to both sides of the screen. Flood rinse entire screen with low pressure rinse.

### TYPICAL PRODUCT PROPERTIES

Appearance	Clear, colorless liquid
Odor	None
pH	4.5
Flash Point	None
Specific Gravity	1.06
Stability	Stable
DOT Shipping	Non-hazardous
